almost invisible

When seen from a distance of twenty feet or more Bird-Coil virtually disappears, and from fifty feet it's invisible.

how it works

Based on the simple premise that birds like a solid landing platform, Bird-Coil de-stabilizes the ledge, causing unwanted pigeons and gulls to take their mess elsewhere.

how to install

Bird-Coil can be attached to any substrate using adhesive and our special coil clips. Install one clip per foot with Bird Barrier Bond or the appropriate screw and clip it in place. It's fast, easy and very secure.

totally humane

Bird-Coil's smooth curves are completely harmless to both birds and unsuspecting workers needing access to ledges.
