

# Daddi Long Legs®

Patents 5,343,651 & 5,452,536

<b>Where to Use</b>	Rooftops and other open areas, A.C. units, streetlights, etc.
<b>Target Bird</b>	Gulls, pigeon or larger
<b>Bird Pressure</b>	Light-Medium (see pg. 6 for details)
<b>Material</b>	Stainless steel and Delrin Plastic
<b>Installation</b>	Delrin base is screwed to surface, glue-on bases available
<b>Installation Level</b>	Easy

**!** Daddi Long Legs must rotate to be effective.

### How it Works

Thin, stainless steel rods rotate in the breeze and wave menacingly, interfering with birds as they attempt to land.

### Easy to Install

The Delrin (plastic) base can be screwed into most surfaces and comes with a 1/4" adhesive neoprene gasket. A PVC base adapter is available for glue-on applications.

### Removable

The center spindle can be easily separated from the base to access an otherwise protected area.

### Hard To See

The Daddi Long Legs is inconspicuous from short distances and practically invisible from 50 feet or more. Its unobtrusive design allows for use in even high visibility areas like shopping/walking promenades & parking lots.

### Humane

The waving rods have plastic tips to prevent injury to birds or humans.

DLL Boat Railing Mount	DD-B115/732251

**Boat Railing Mount:** When birds consider your boat's railing a perfect perch, attach a Daddi Long Legs with our new boat railing mount.

**Boat Base:** This Lexan adapter attaches to the Daddi Long Legs base. It attaches to your boat with a bungee cord or rope.

**Sandbag Base:** The weighted sandbag base can be used in areas where the standard boat base is not appropriate.

**PVC Base:** When drilling is not an option, Daddi Long Legs can be attached to the PVC glue-on base adapter

1) The Daddi Long Legs protects the peaks of canopies and umbrellas. 2) On wide applications the Daddi Long Legs can do the work of several rows of spike. 3) One unit mounted in the center will protect up to an eight-foot diameter area.
