English Sparrow Bird-House Trap

English Sparrows are cavity dwellers so a birdhouse is a natural attractant. The wooden English Sparrow trap was designed to be a typical "birdhouse" but there's a twist! The front wooden panel drops down and inside the house is a spring-loaded trap door & perch, which is positioned below the opening so when the bird enters the house and lands to perch, the trap door snaps shut. The trap has a fluorescent orange sticker affixed to it allowing you to check the status of the trap door from a distance.

The opening in the trap measures 1.25 inches, which is a perfect size for cavity dwelling English Sparrows.

Dimensions: 9"H x 5"W x 5.5"D

Pigeon Trap

This collapsing trap offers large size/capacity and the ability to fold down to only 2" for easy transporting. To collapse, there are no pins to pull or wire ties to cut, simply push the sides out a little and it folds flat. Pigeons enter the trap at each end through bobs in a slanted wall, this recessed entrance encourages them to move forward towards the bait. The slant of the wall makes it impossible for them to exit. Birds are easily removed through a spring loaded door at the top of the cage.

Pigeon Trap (ea.) TT-PI10 645243

Dimensions: 40" x 22" x 12"
Shipping Weight: 12 lbs.

Sparrow Trap

Two-chamber, bi-level repeating trap is ideal for sparrows. The trap accommodates twelve sparrows at a time. Unlike ground level traps, the birds enter the trap and immediately move to the elevated 2nd level, which eliminates their feeling of entrapment and the need to emit a distress call.

Dimensions: 16" x 12" x 8"
Shipping Weight: 4 lbs.

EZ Catch Bird Trap

This is a single-catch closing net bird trap for placing flat on the ground, on walls, sides of buildings, or trees. This bird trap is ideal for woodpeckers, starlings, pigeons, and other individual birds that can be baited. The larger traps can catch multiple birds at one time. This trap comes in three sizes and has a framework with gentle green nylon netting for a safe, humane capture. An optional remote control is available for the 36" model and can be activated by a remote control from 450 feet away.

Bait-Tray Operated		
Small, 17" x 17"	TT-E1717	102920
Large, 24" x 24"	TT-E2424	653036
X-Large, 36" x 36"	TT-E3636	638049

Remote Trigger Operated		
Remote Trigger Trap, 36" x 36"	TT-FT36	654786

Pocket-sized remote control activates the Remote version from up to 450 feet away.

Repeating Pigeon Trap

This trap is designed with a unique hinged divider - for easier bird removal and features a Full Wire Floor. Has 4 one way entry doors with door guards - this means it has doors on all sides! Plus you have 2 centered top access doors for easy removable of birds. Can hold 35+ birds and no assembly required - simply remove from the box and place where needed.

Dimensions: 46" x 24" x 10"
Shipping weight: 13 lbs

Repeating Starling Trap

The heavy duty cage features 1/4" x 1" rod frame and 14 gauge welded wire with a V-top. It assembles easily and breaks down in minutes. This trap consists of 15 panels.

Repeating Starling Trap (ea.) TT-ST10 645248

Dimensions: 57" x 65" x 60"
Shipping Weight: 135 lbs.

Sparrow Sled

A unique hanging trap designed for discreet applications in high traffic areas. Its size (24" x 13" x 13") allows for a large catch capacity while several exclusive features make it ideal for sensitive customers. Water bottles prevent birds from dehydrating and expiring and the sled provides the birds with an outer perching area and captures any droppings or other debris that may fall from the trap. It obscures the contents of the trap from view when observed from below. Hangs from the ceiling or sits on a flat surface.
